TCP/IP · BGP · OSPF · MPLS · SD-WAN · Firewall · IDS/IPS · ZTNA · VPN · Active Directory · DNS · DHCP · Help Desk · Support N1/N2/N3 · ERP · Remote access · Hardware maintenance · Virtualization · Windows Server · Linux · ITIL · Infrastructure management · Team leadership

LANGUAGES

Portuguese — Native
English — A2

EDUCATION

B.Sc. in Information Systems
UNINASSAU · 2024 · Completed

QA & automated testing
Udemy · 2024 · Cypress beginner and intermediate

Front-End Developer
Rocketseat · 2024 · React, Java, NLWs

PROFESSIONAL EXPERIENCE

Full Stack Developer — IASSEPE · Present

Institute for Health Care and Well-being of Civil Servants of the State of Pernambuco

• Internal systems for public service, end to end: SPAs with React 19, TypeScript, Vite and Tailwind CSS on the front-end; REST APIs with Node.js, Express, JWT, LDAP and PostgreSQL + Prisma on the back-end.

Skills: React 19 · TypeScript · Vite · Tailwind CSS · Radix UI · shadcn/ui · React Hook Form · Zod · Node.js · Express · JWT · LDAP · PostgreSQL · Prisma

Network Manager — IASSEPE · Jun/2025 – Mar/2026 · 10 months

• Management of corporate network infrastructure with a focus on availability and performance.

• Leadership of the IT team, coordinating expansion and modernization projects.

• Implementation and administration of TCP/IP, BGP, OSPF, MPLS and SD-WAN networks, plus virtualized environments.

• Configuration and maintenance of firewalls, IDS/IPS and ZTNA security solutions.

Skills: TCP/IP · BGP · OSPF · MPLS · SD-WAN · Firewall · IDS/IPS · ZTNA · Virtualization · Infrastructure management · Team leadership

Full Stack Developer — XoHub · 2025–2026 · Independent product

Module hub for Path of Exile 1 and 2 — desktop overlay and subscription web panel

• Designed and evolved a full hub: a Python/PySide6 desktop HUD and a React web panel to unlock modules by subscription.

• Client modules include Cluster Jewels, vendor/stash regex, PoB Trade Links, Blight, Farms with Atlas, Timeless Jewels, Fast Leveling and Auto Flask on PoE 2.

• Price check reads the item on screen, queries official trade and poe.ninja, and opens search with real filters, rate limiting and cache.

• Node.js/Express API with Prisma and PostgreSQL; each module can be purchased on its own, on a 1 to 3 month cycle, with automatic updates via version.json.

Skills: Python 3 · PySide6 · React · TypeScript · Vite · Tailwind CSS · Node.js · Express · Prisma · PostgreSQL

Desktop Developer — XoMacro · 2026 · Independent product

Keyboard and mouse recorder/player for Windows — C# / .NET 8

• Windows app with a macro library, triggers from a key or mouse button, focus on a specific process, and repeat by count, hold or infinite loop.

• Each macro mixes steps (combo, text, wait, click) or a timeline of recorded events, with resume by stage and speed from 0.25× to 3×.

• Global hotkeys, on-screen status watermark, system tray, per-monitor DPI, light/dark themes and a self-contained net8.0-windows publish through build 62.

Skills: C# · .NET 8 · WinForms · Hotkeys · Input simulation

Full Stack Developer — XoD (PKMDBOT) · 2024–2026 · Independent product

Product with site, plans, launcher and desktop bot — xod.vercel.app

• Web app with dynamic plan selection based on character status (new, active trial, expired trial or subscriber).

• Mercado Pago integration (Preference API and webhook), Google Sheets as the store, and a referral system validated on both front-end and back-end.

• Desktop client (XoD-Bot) with screen-vision automation, a native Mini HUD and Windows distribution via PyInstaller.

Skills: React · TypeScript · Node.js · Express · Mercado Pago · Python 3 · OpenCV · CustomTkinter · PyInstaller

Developer — XoBot Twitch Manager · Independent product

• Twitch bot manager with a Python GUI, OAuth 2.0, Helix API and IRC.

• Remote back-end via Google Apps Script and Google Sheets for onboarding and automatic token refresh, distributed as a Windows executable.

Skills: Python 3 · Tkinter · asyncio · Twitch API · OAuth 2.0 · Google Apps Script · PyInstaller
